

## Western Riding 4-H Pattern #1

1. Enter gate and wait at Cone A until signaled.
2. Trot from A to B and over log.
3. Between B and C begin a left lead canter.
4. Weave cones on opposite side, switching leads as appropriate. Flying changes are awarded more points than simple changes, but a good simple is worth more than a poor or very late flying change!
5. Continue cantering back and forth across arena as per pattern – making three lead changes in exactly the center of the arena while completing pattern.
6. Canter down center line, stop and back horse 5 steps. Exit arena at a walk.
